DOCUMENT CHANGE REQUEST

DCR number 1817	Changes required for: MRB decision	Originator: Steve Thacker	
Date: 2026/07/16	Date sent: 2026/06/17	Organisation: ESCC Executive Secretariat	
Status: IMPLEMENTED			

Title:	Load RF Coaxial Type SMA, DC-22GHz		
Number:	3403/006	Issue:	5

Other documents affected:

Page:

17 & 19

Paragraph:

2.7 & 2.8

Original wording:

As per current 3403/006 issue 5

Proposed wording:

Amend drift value / maximum limit in Paras 2.7 & 2.8 as follows:
Para 2.7:
Voltage Standing Wave Ratio Drift Value to be +/- 4% (was 2%)
Resistance Drift Value to be +/- 2 ohm (was 250 mohm)

Para 2.8 Operating Life (only) Final Measurements:
Resistance Drift to be +/- 2 ohm maximum (was 250 mohm)
VSWR Drift to be +/- 4% maximum (was 2%)

Several additional minor editorial changes are also inlcuded.

See attached spec mark-up Draft 6 with change details highlighted yellow

Justification:

This DCR is rasied on behalf of Manufacturer Radiall in response to the conclusions of ECSS NCCS 2CRAD601.
