Paragraph:

Many - see attachment

Original wording:

See ESCC Basic Specification No. 25000 Issue 1 (ESA/SCC Basic Specification No. 25000 Issue 1).

Proposed wording:

As shown in the attachment (ESCC Basic Specification No. 25000 issue 2 Draft A).

Justification:

ESA's Photonics Working Group has identified a need to either introduce, or re-define as necessary, all required Electro-Optical Test Methods applicable to the range of electro-optical devices in the ESCC system, including CCDs. The technical content of the proposed spec update has been discussed and finalised by the Photonics Working Group.
