DOCUMENT CHANGE REQUEST

DCR number 871	Changes required for: General	Originator: Steve Jeffery
Date: 2014/10/14	Date sent: 2014/06/27	Organisation: ESCC Executive
Status: IMPLEMENTED		

Title:	Single Event Effects Test Method and Guidelines		
Number:	25100	Issue:	1

Other documents affected:

Page:

Many - see attachment.

Paragraph:

Many - see attachment

Original wording:

See ESCC Basic Specification No. 25100 Issue 1.

Proposed wording:

See attachment ESCC Basic Specification No. 25100 Issue 2 Draft A.

Note that DCR 756 (approved on the 11th June 2014) also refers and the attached draft spec includes the changes defined in that DCR.

Justification:

1) The proposed changes are considered necessary improvements to the spec; the proposed technical changes have already been discussed and agreed by ESAs Radiation Working Group.

2) User Forms are made available on ESCIES rather than embedded in basic specs (ref. DCR 756).
