

DOCUMENT CHANGE REQUEST

DCR number 945 Changes required for: General

Date: 2015/10/21

Date sent: 2015/08/05

Originator: John Mercadie

Organisation: Minco

Status: IMPLEMENTED

Title: Resistors, Heater, Flexible, Single and Double Layer, Based on Type FHK

Number: 4009/003

Issue: 2

Other documents affected:

Page:

15

Paragraph:

Appendix A

Original wording:

Additional text (see modified text)

Proposed wording:

Addition : PARA 8.2, Rapid change of temperature: The heaters shall be subjected to MINCO instruction IP59_ Programming_Chocs_thermiques_ ESCC.

Justification:

related to new test equipment qualification

Attachments:

N/A

Modifications:

The actual changes to be implemented per this DCR are clarified as follows:

Page 15, Appendix A deviation item "Para. 8.2, Rapid Change of Temperature" shall be amended to be as follows (i.e. change to test method):

Para.8.2, Rapid Change of Temperature:

Mounting: Heaters may be mounted using any suitable method.

Test Method: As specified in MINCO instruction IP59 Programming Chocs Thermique ESCC.

Data Points: Electrical measurements during and after testing are optional at the Manufacturer's discretion.

Approval signature:

A handwritten signature in black ink, appearing to read "V. Sc. Haring", is written across the signature line.

Date signed:
