

## DOCUMENT CHANGE REQUEST

DCR number 1713 Changes required for: General

Date: 2025/10/09

Date sent: 2025/01/14

Originator: Marco Colella

Organisation: RGM srl

Status: IMPLEMENTED

Title: DESTRUCTIVE PHYSICAL ANALYSIS OF EEE COMPONENTS

Number: 21001

Issue: 4

Other documents affected:

Page:

24

Paragraph:

Note 4

Original wording:

The ceramic discoidal capacitor(s) meet the requirements of ESCC Basic Specification No. 24800.

Proposed wording:

The ceramic discoidal capacitor(s) meet the requirements of ESCC Basic Specification No. 23400.

Justification:

The ESCC 24800 refers to RESISTANCE TO SOLVENTS OF MARKING, MATERIALS AND FINISHES instead of the ESCC 23400 MICROSECTION EXAMINATION PREPARATION AND EVALUATION OF CAPACITORS FIXED CERAMIC LEADED AND CHIPS which I believe was the originally intended reference.
