

DOCUMENT CHANGE REQUEST

DCR number 285 Changes required for: General

Date: 2006/10/10

Date sent: 2006/10/10

Originator: Steve Thacker

Organisation: ESA/ESTEC

Status: IMPLEMENTED

Title: REP001

Number: REP001

Issue: 2

Other documents affected:

REP002-1

Page:

Paragraph:

Page 46: Class of Publication: 21, Resistors Film and Metal Oxide (4001/***)

Original wording:

Proposed wording:

Remove the following 5 Detail Specifications from REP001 (to be transferred to REP002).

Spec No.	issue	Title
4001/016	1	Resistors Fixed Chips Film, based on type CHP HR0505
4001/017	1	Resistors Fixed Chips Film, Based on type CHP HR0705
4001/018	1	Resistors Fixed Chips Film, based on type CHP HR0805
4001/019	1	Resistors Fixed Chips Film, based on type CHP HR1010
4001/020	1	Resistors Fixed Chips Film, based on type CHP HR1206

Justification:

The devices covered by these 5 ESCC specifications are no longer supported for new procurement against ESCC 4001 as confirmed by CNES/Vishay-Sfernice (the recognised original manufacturer). As such the specifications are considered as discontinued and should be retired to REP002.

The old style "CHP HR*****" range of devices have been replaced & expanded on by a new version of CHP thick film chip resistor in several sizes (0603 to 2512). A new, single ESCC Detail Specification is being written to cover the new range (ESCC Draft No. 62)
