Paragraph:

table 1 (a)

Original wording:

table

Proposed wording:

new table

Justification:

The chapter 4.3.9 indicate 0.7 N max per contact (contact alone)

In the same time Chapter 4.3.5 (mating / unmating forces) indicate to see table 1(a)

The value indicates in table 1(a) corresponding to 0.7 N per contact

At this level the contact is assembly inside the insulator with a reduce gap due to the gluing

Gluing reduces gaps inside insulator / contact and increases effort

In production we have no possibility to reduce our criteria (0.7 N per contact)

So we purpose to change mating unmating forces indicates in table 1 (a) 1 N per contact
