Paragraph:

Appendix A & B as applicable

Original wording:

Per current spec issue

Proposed wording:

Amend each Appendix for any Manufacturer (i.e. Leach & REL-STPI) that is no longer ESCC qualified for the particular specification as follows:

1) Delete deviation on Coil Life (delete Appendix if this is the only deviation listed; retain the deviation if the Manufacturer is still ESCC qualified).

2) Change Generic spec reference from "Qualification and Periodic Tests" to be "Lot Validation Testing".

Justification:

1) The coil life deviation only applies to ESCC qualified Manufacturers so should be removed for any non-ESCC-qualified Manufacturers.

2) If the Manufacturer is not ESCC qualified, the Chart F4 tests only apply to Lot Validation Testing for that Manufacturer.
