

DOCUMENT CHANGE REQUEST

DCR number 1706 Changes required for: General Originator: Steve Jeffery

Date: 2025/10/06 Date sent: 2024/12/06 Organisation: ESCC Executive

Status: IMPLEMENTED

Title: Internal Visual Inspection of Electromagnetic Relays

Number: 2043600 | Issue: | 2

Other documents affected:

2053600-5

Page:

15 of ESCC Basic Specification No. 2043600 Issue 2,

7 of ESCC Basic Specification No. 2053600 Issue 4

Paragraph:

4.7(m) of ESCC Basic Specification No. 2043600 Issue 2,

4.3(c) of ESCC Basic Specification No. 2053600 Issue 4

Original wording:

In Para. 4.7(m) of ESCC Basic Specification No. 2043600 Issue 2: "Foreign particles embedded in the glass seal"

In Para. 4.3(c) of ESCC Basic Specification No. 2053600 Issue 4: "Foreign material embedded in the glass seal"

Proposed wording:

See attached MSWord files of updated draft Basic Specifications ("ESCC2043600Iss3DraftA for review" and "ESCC2053600Iss5DraftA for review").

(The content of 2043600 has been re-arranged to match that of 2053600. Therefore, all Figures are in a dedicated Para. 5 with Paragraph 4 including cross-references to Paragraph 5; this is also highlighted in yellow)

Justification:

This DCR has been raised by the ESCC T.W. on behalf of the manufacturer REL Crouzet.

A revised definition of the "Foreign particles/material embedded in the glass seal" reject criteria is considered necessary and has been agreed in advance by ESA and CNES.
