NOTES:

1. This is an interim DCR which adds deviation(s) to three Detail Specs for the ESCC QPL listed manufacturer Measurement Specialties (MEAS Ireland (Betatherm) Ltd) in the event their re-qualification process begins prior to close-out of DCR 696 for Generic 4006.
2. Approved DCRs 716, 717 and 718 (which were raised for the proposed conversion of the above detail specs to the new ESCC format) refer and already include the changes proposed herein.

Justification:

These are technically acceptable deviations for Thermistors produced and screened by Measurement Specialties and these changes have already been approved - DCRs 716, 717 and 718 refer.
