

# User and Supplier Needs and Interests Consolidation in Germany

Dr.-Ing. Andreas K. Jain ([andreas.jain@dlr.de](mailto:andreas.jain@dlr.de)),  
Jürgen Tetzlaff ([juergen.tetzlaff@dlr.de](mailto:juergen.tetzlaff@dlr.de)),  
ESCCON, Noordwijk, 15. - 17. March 2011

# German Aerospace Center (DLR)

Aeronautics

Space

Transportation

Energy

- Research Institution
- Space Administration
- Project Management Agency
- 6500 employees across 29 research institutes and facilities at 13 sites
- Total budget (2011) : 2980 Mio €

# Tasks and Responsibilities within the DLR EEE-Parts Section on behalf of the Space Administration

- Determination and prioritization of the national EEE-parts demand  
→ [National technology development and qualification program](#) → increasing EEE-part availability
- Launching EEE-part qualifications
- Performing qualification and re-qualification audits with manufacturers
- Establishing strategies to increase the availability of EEE-parts in the frame of the [European programs \(ECI, ESCC, FP7\)](#)
- Representation of the German Space Administration, German manufacturers and users within the European Space Components Coordination (ESCC)
- EEE-part conferences for user and supplier needs and interests consolidation

## Topics of the EEE-part Conferences :

- Annual for users
- Bi-annual for users and suppliers (part manufacturers)
- EEE-part availability (and application of the EPPL)
- Qualification procedures
- Parts problems (alerts, export restrictions ...)
- Technology developments
- Harmonization of the national technology development and qualification program

# Harmonization of the National Technology Development and Qualification Program in Detail :

- To propose actions and tasks to improve the EEE parts availability
- To agree on actions and tasks
- To prioritize and approve the proposed action list
- To report on actions and tasks performed, their results, and their application
  - ➔ To increase the acceptance at customer level
  - ➔ To reduce the impact of export restrictions
- Supported by information web site (password protected only for German users, [www.ibara.de](http://www.ibara.de) see slide 6)

# Additional Harmonization / Discussion via DLR Web Site “IBARA“ (for registered Users only)

# EEE Programs Roadmap

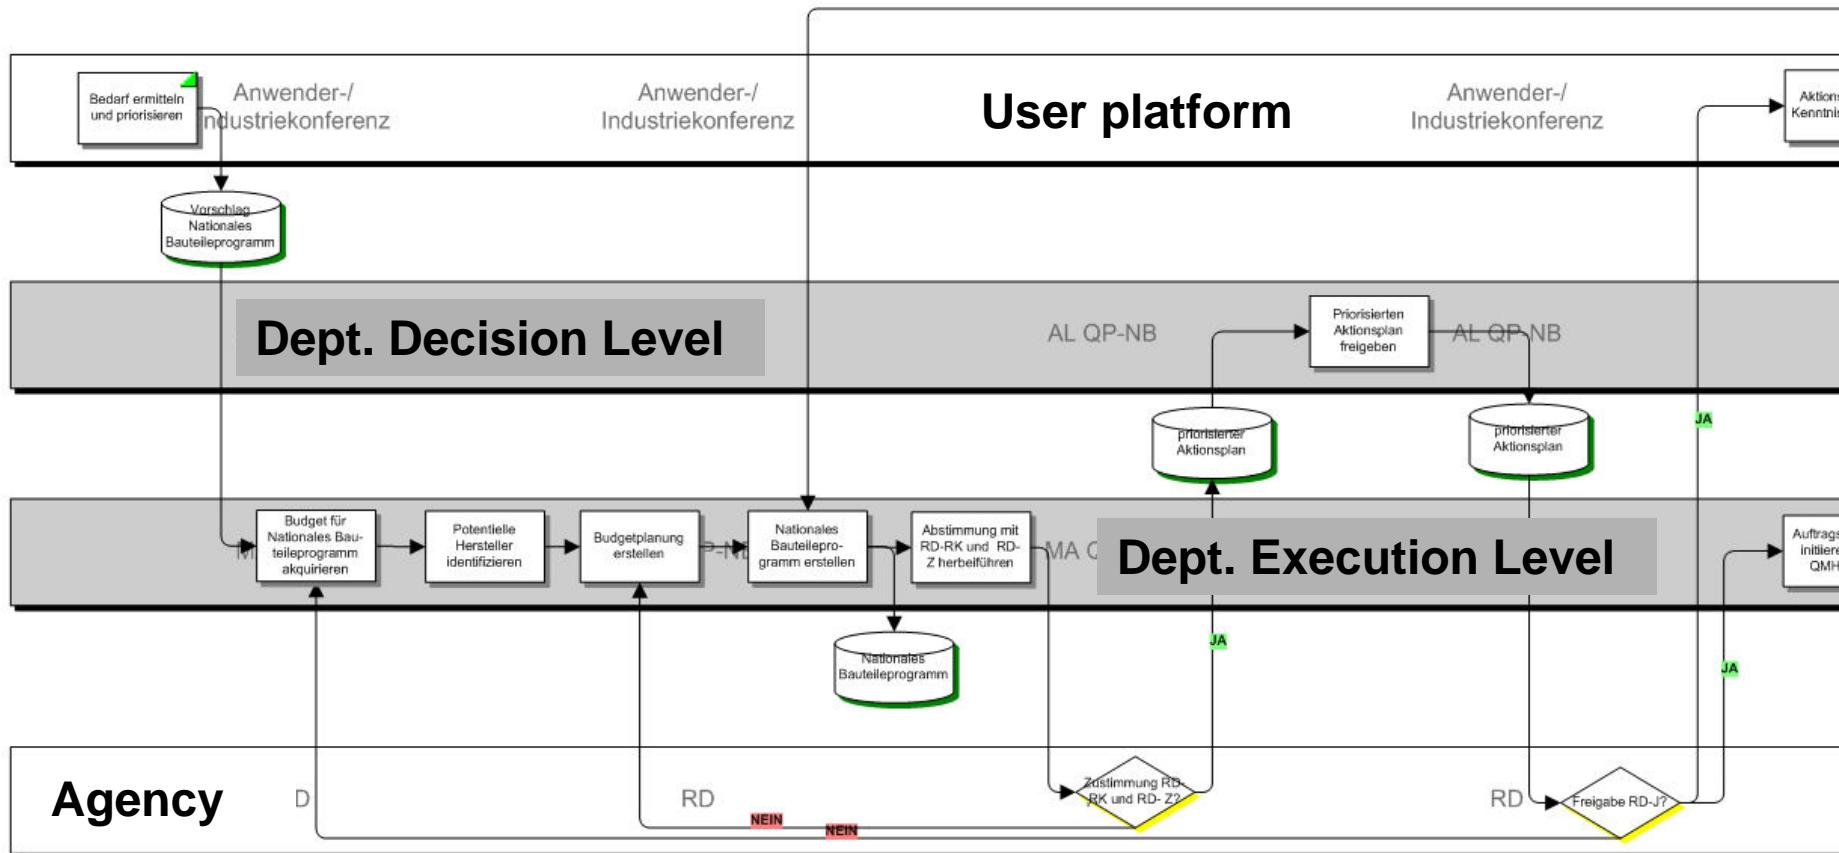

# DLR Way for Action Plan Consolidation

- Draft action plan as input for German User Platform  
(example on slide 11) 
- Discussion, harmonization and prioritization of user needs at this platform
- Identification of suitable manufactures
- Internal negotiations (budget, priorities, human resources, approvals ...)
- Establishing specifications if not available from ESCC
- ESCC harmonization (CTB input for AQP)
- Consolidated budget table = German action plan  
(see example on slide 12) 
- Contract placing and execution regarding to DLR process requirements (see process flow on slide 9) 
- Input to ESCC QPL and EPPL
- To report results and application of running or performed programs
