[ESCC QPL July 2017](#)

The ESCC QPL July was published with 8 extensions. For more information please click [HERE](#)

[ESCC QML Issue 15 / May 2017](#)

The ESCC QML issue 15 was published May 9th 2017 includes:

- revised scope of Qualification for Microchip Atmel Technology Flows.
- extended qualification validity period: Vishay Sfernice Technology Flow
- added Process Capability Approvals for hermetic hybrid production lines of Airbus Defence and Space (France) and Safran-Sagem (France)
- other editorial changes affect bullet/ sub-paragraph numbers inside paragraphs as a result of the mentioned additions

NEW ESCC Specification Published

July 2017: A NEW ESCC Detail Specification for DIODES, SiC, SCHOTTKY, BLOCKING HIGH TEMPERATURE BASED ON TYPE SIC-HT-SBD01 was published, ESCC **5106/022** issue 1. Please click [HERE](#) for more information.

UPCOMING EVENTS

[IEEE Nuclear and Space Radiation Effects Conference](#)

NSREC 2017 will take place July 17 to 21, 2017 at the New Orleans Marriot, USA. For more information, please click [HERE](#)

[IEEE Summer School 2017](#)

Nanoelectronic technologies and devices - From basic principle to highly reliable applications.

Organized by IRT Saint Exupéry - July 10 to 14, 2014 at LAAS-CNRS, Toulouse, France

RECENTLY PUBLISHED ESCC SPECIFICATION

NEW ESCC Specifications published since 15th June 2017

Number	Title	Issued
5106/022	DIODES, BLOCKING, HIGH TEMPERATURE, SIC, SCHOTTKY	

Up-Issued ESCC Specifications published since 15th June 2017

Number	Title
3001/033	Capacitors Fixed Ceramic Dielectric Type I High Voltage 1.0 to 5.0kV, based on case styles VR,CV & CH
3001/034	Capacitors Fixed High Ceramic Dielectric Type II High Voltage 1.0 to 5.0kV, based on case styles VR,CV & CH
