Subject: Qualification renewal of ACB

Dear Mr Van de Slyeke,

ACB submitted PCBs of rigid and rigid-flex sequential polyimide technology to ESA for qualification renewal in September 2021. The successful outcome is reported in ESA-TECMSP-TR-025023 and ESA-TECMSP-TR-025324.

A delta qualification for increased PCB thickness and mixed surface finishes is ongoing. This is not concluded by the present letter, which therefore still makes reference to the previous PIDs.

ACB Dendermonde is considered qualified in accordance with ECSS-Q-ST-70-60C for the manufacture of Printed Circuit Boards as follows:

- Rigid sequential polyimide PCBs as per PID_SeqRigid_v180618 ed4 until 10 December 2023
- Rigid-flex sequential polyimide PCBs as per PID_FR_v190531 ed4 until 10 December 2023

Best regards,

Jussi Hokka
