Failure Analysis, DPA, NCCS available: \boxtimes Yes No (Supply data)

Ref. No's and purposes:

13 The undersigned hereby certifies on behalf of the ESCC Executive - that the above information is correct; -

that the appropriate documentation has been evaluated; - that full compliance to all ESCC requirements is evidence (except as stated in box 15;) - that the reports and data are available at the ESCC Executive and therefore applies on behalf of Enterprise Ireland as the responsible Executive Member for ESCC qualification status to be extended to the component(s) listed herein.

folm Brienty

Enterprise Ireland (Signature of the Executive Coordinator)

Continuation of Boxes above:

02/07/2024

14

Date:

- Section 2.1. Changed TE Connectivity Sensors Solutions Division to TE Connectivity Sensors Group.
- 2. Section 2.2. Updated Organisation Chart.
- 3. Section 2.2.1. Changed from Sales Manager to Sales team and updated text.
- 4. Section 3.1. Added paragraph describing outsourcing of NTC ceramic chip production to Betacera, Taiwan,
- 5. Section 3.2. Updated to show that Production Areas 1 and 2 no longer apply to ESCC 4006/013 devices.
- Section 3.2. X-Ray equipment has been moved to Production Area 2. Therefore, removed reference to X-Ray room and add that X-Ray is performed 6. in Production Area 2.
- Section 3.2. Removed Radiographic Inspection of ESCC 4006/013 devices from 'External Operations and Testing' as this operation is always performed in-house.
- 8. Fig 3.2.1. Updated to remove reference to X-Ray room as X-ray is now performed in Production Area 2.
- 9. Section 3.3. Updated to reflect SAP order processing.
- 10. Fig 3.4.1. Removed as not necessary to describe order processing.
- 11. Section 3.4.2. Updated to reference latest revision of route-sheet.
- 12. Section 3.4.4. Updated to reference latest revision of route-sheet.
- 13. Section 3.4.5. Updated to reference latest revision of route-sheet.
- 14. Section 4.4. Changed from 'in the preparation of the ceramic material' to 'in the preparation of the ceramic material (ESCC 4006/014)'.
- 15. Section 4.4.(e) Updated to remove description of Metallisation process for ESCC 4006/013 devices.
- 16. Section 4.4.(f) Updated to remove reference to ESCC 4006/013 devices.
- 17. Table 4.4.1 Updated to show Chip purchased from Betacera instead on manufactured.
- 18. Table 5.5.1. Updated information to show current situation.
- 19. Section 5.2. Updated so that Chart I does not reference ESCC 4006/013.
- 20. Section 6.1. Updated Equipment List to show current situation.
- 21. Section 7.1. Updated Qualification status.

ANNEX 1: LIST OF TESTS DONE TO SUPPORT EXTENSION OF QUALIFICATION

Tests conducted in compliance with:

- ESCC 4006 generic specification; Chart F4 (for ESCC/QPL parts);

Tests vehicle identification/description:

Detail Specification reference:

Chart F4 Tests on Variant 06 devices of ESCC 4006/013 – Date Code 2237A; which also requalifies Variants 01, 02, 03; 04 and 05 by Structural Similarity.

Chart F4 Test – Operating Life Test of Endurance SubGroup on Variant 07 devices of ESCC 4006/013 – Date Code 2237B; carried out as this Variant has a different ceramic composition to that of Variants 01, 02, 03; 04, 05 and 06. .

Executive Member: Enterprise Ireland

Chart F4 Tests on Variant 08 devices of ESCC 4006/014 – Date Code 23191; which also requalifies Variants 09 and 13 by Structural Similarity.

ESCC 4006/013 Iss.8 and ESCC 4006/014 Iss.10. Note that all references to MIL-STD-202 Test Methods; for the purposes of this re-qualification; relate to MIL-STD-202H – Issue Date 18th April 2015

APPLICATION FOR EXTENSION OF ESCC QUALIFICATION APPROVAL

Component title: THERMISTORS, (THERMALLY SENSITIVE RESISTORS), NTC, BASED ON TYPES G15K4D489 AND *K3A35*

Executive Member: Enterprise Ireland Date: 20/06/2024

Page 7 Appl. No.

266L

NOTES ON THE COMPLETION OF THE APPLICATION FORM FOR ESCC QUALIFICATION EXTENSION APPROVAL

Form heading	shall indicate: - the title of the component as given in its detail specification or the name of the series, family; - the Executive Member; - the entering date; - the certificate number and its sequential suffix.
Box 1	shall provide details given in the table; in particular there shall be listed: - the variants or range of variants; - the range of components (the ESCC code is recommended to indicate the values or values range, the tolerance, the voltage, etc); the designation given in the detail specification as 'base on'; - under Test Vehicle enter either an ESCC code or the specific characteristic capable of identifying the component tested (e.g., voltage of coil for a relay); - under component similar enter a cross if relevant.
Box 2; 3 and 4	As per QPL entry; otherwise, an explanation of the changes must be supplied.
Box 5	Will show the ESCC Generic and Detail specifications, including issue number and revision letter, current at the time the tests reported were performed. If the specifications are different from those current on the date of the application, see Box 6.
Box 6	Will show the deviations from the Generic and Detail Specifications listed in Box 5, in particular deviations from testing. In case of deviations this must be listed in Box 15. In case the referenced specification in Box 5 have currently a different issue and/or revision indicate also whether the test data deviates or not from such current documents.
Box 7	Must reference the report(s) supplied in support of the application.
Box 8	Should provide the details of procurement to the full ESCC System, documentation of all of which should already have been delivered to the ESCC Executive under the terms of the relevant Generic Specification. An appropriate table has been drawn in this box.
Box 9	If the PID evolved after the Original Qualification or after the last Extension of Qualification, adequate details of such evolution shall be provided together with the reasons for the changes. Major changes shall be clearly marked.
Box 10	Identify the current PID issue status, date and actual date of verification. The date of verification of the current PID should be arranged as close as possible to the required date of extension.
Box 11	This box can be completed only after a physical visit to the plant to confirm that no unexplained changes occurred and that the practices, procedures, material, etc. used in manufacturing the components are as described in the PID. This survey shall be carried out in accordance with the requirements of ESCC Basic Specification No. 20200 and its findings shall be recorded.
Box 12	Provide details of, or reference to, any Destructive Physical Analysis (DPA) and Failure Analysis reports as well as any Nonconformance(s) (NCCS) occurred during the qualification validity period, stating if established corrective action have produced satisfactory results.
Box 13	Enter only the name of the Executive Member (i.e., CNES, DLR, ESTEC, etc.) and the signature of the responsible Executive Coordinator.
Box 14	To be used when there is a need to expand any of the boxes from 1 through 12. Identify box affected and reference the Box 14 in the relevant Box. Box 14 can be broken into 14a, 14b, etc. if several boxes have to be expanded.
Box 15	Fill in Table as requested.
Box 16	Any additional action deemed necessary by the Executive Member to bring the submitted data to a standard likely to be accepted by the ESCC Executive should be listed herein or the reason(s) to accept the noncompliance.
Box 17	All Executive Manager recommendations on the application itself, special conditions or restrictions, modifications of the QPL or QML entry, letters to the manufacturer, etc. shall be entered clearly in Box 19, signed by the representative for ESA, and dated.
Box 18	Fill in Table as requested.
Box 19	Confidential Details of PID changes including those of a confidential nature, shall be provided.
Box 20	State noncompliance with reference to specification(s) and paragraph(s). To simplify reference in Box 16 each nonconformance shall be sequentially numbered. If relevant state 'None'.
Box 21	Any additional action deemed necessary by the Executive Member to bring the submitted data to a standard likely to be accepted by the ESCC Executive should be listed herein or the reason(s) to accept the noncompliance.
Box 22	Additional Comments.
