Subject: Qualification renewal of sequential rigid polyimide PCBs from Systronic

Dear Mr Faure,

Systronic submitted a sequential rigid polyimide PCB to ESA for qualification renewal in March 2026. The qualification test results are reported in ESA-TECMSP-TR-2026-001713. No deviations from the applicable requirements were identified during the inspection of the qualification board.

Systronic is therefore considered qualified in accordance with ECSS-Q-ST-70-60C for the manufacture of printed circuit boards within the qualified domain defined by the following Process Identification Document (PID):

- Rigid sequential polyimide PCBs as defined in PID 6, Edition 13, until 1 July 2028.

Best regards,

Simon Fidler
